KULTURE CABIN

PRODUCT DATA SPECIFICATION

Kulture Cabin is a comfortable workplace for one. Providing a distraction-free zone in busy, open plan spaces.

Material

The Carcass and seat box are manufactured from 25mm and 18mm M.F.C. edged in 2.0mm ABS. The unit is supplied flat pack and is assembled using cams pins and dowels.

The unit is supported on steel plates and M8 adjustable feet. Kulture Cabin has been designed to be easily levelled from above. The seat is a polyurethane foam covered in the customer's own choice of fabric.

The interior is lined with a polyester fibre (pet) acoustic panels. The material is manufactured from recycled materials of which 50% is comes from recycled bottles. This material is recyclable.

Kulture Cabin is supplied with a small work surface and comes complete with an adjustable dimmable LED wall fixed light. A 13 amp mains power and Twin USB Fast Charge outlets are supplied in a compact unit fitted conveniently in to the corner of the work surface. A steel cover neatly contains all the electrical equipment. The power lead is concealed in 'wipe in' trunking.

Considerations

- Selection of upholstery fabrics and colours available.
- PET Elephant Grey Acoustic PET Felt.
