

WORKSPACE

A DESK REFLECTING YOUR IMAGE

It is certainly the most personal of spaces within the company, since it reflects the personality and management style of its leader.

At times a place for face-to-face exchanges, for meetings and concentration, this authoritative space embraces ergonomics and a considered visual aesthetic.

Characterised by clean and elegant lines, our executive desks are the perfect solution with which to furnish these environments.

For a more contemporary style, lean towards the timeless designs of the MOKA and KARA ranges.

If it is a more traditional style you are after, RIO is ideal as it provides a respectable desking solution for open-spaces as much as private offices.

KARA

KARA instantly stands out by the generous thickness of its worktops and its timeless design style. Its worktops and storage units adapt to a users' every need, allowing numerous layout configurations, offering an extensive work surface and making it the perfect desking solution for managerial or executive spaces.

THE KEY TO PERFORMANCE AND WELL-BEING

Whether destined to be used by several people, or an individual, the shared workstation for collaborative work is a key element in ensuring the well-being of employees.

Sit-stand desks allow users to alternate their working stance throughout the day and are therefore the ideal solution to promote continued dynamic engagement and comfort.

Choose AXEL or ESSENTIEL UP and equip yourself with the ideal response to this emerging working mode.

Fixed height desks, for their part, must offer a range of ergonomic configurations, complemented by ingenious storage solutions to guarantee comfort at work.

CONNECT is the expression of these new solutions, thanks to its highly modular design and structural storage components.

Finally, ARIAL provides a workable shared workstation desking solution to meet the needs of tighter budgets.

OPTIONS

Set of 2 spacing bars for shared workstations (powered version).
These create a space between adjoining desks in order to prevent the accidental trapping
of fingers during worktop height adjustments. Attach to the desk structure.
Available in a choice of White SO, Aluminium grey SA or Black SG (+ fin.).

CONNECT

Thanks to its one-piece construction metal structure, CONECT caters fully to the current trend for shared spaces that promote communication and proximity. With its angular lines and clean aesthetic design, CONECT sits comfortably within modern collaborative work environments. Additionally, a desk frame that sits slightly apart from the worktop confers a sense of lightness to this expansive desk.

Workstation comprising 4 rectangular desks resting on a shared structural storage unit. Bridge design legs.

OPTIMISE, DEFINE AND PERSONALISE YOUR SPACE

Open spaces greatly facilitate communications and interactions between employees. Yet, it is just as important for each member of staff to be able to define a space of their own, in order to promote concentration and work efficiently. To this end, desktop screens are essential for any workspace requiring an element of privacy. Purely decorative or with acoustic properties, they can also be accessorised to provide a personalised and clutter-free workspace. What is more, partitions help define areas for face-to-face interactions. SOLANGE's extensive choice of colours and gently curving profiles will enable you to structure the work space, whilst reducing ambient noise. Easy to combine, thanks to a practical and ingenious linking system, the partitions can also be mounted on castors which will facilitate the (re)configuration of work spaces to suit your needs.

SOLANGE

SOLANGE desktop screens and partitions allow for the creation of private areas within a larger shared workspace, favouring concentration. Thanks to their highly effective sound absorption qualities, these acoustic screens and partitions significantly reduce the disruptive impact of ambient noise, whilst at the same time providing an aesthetically harmonious backdrop to the workspace.

- Shared workstations, page 57
- Ergonomic chairs, page 195

Clever & soundproofing

SOLANGE acoustic desktop screens absorb up to **50%** of nuisance ambient noise.

To be ordered separately
Must be included in your order
Complete with the addition of a connector kit to link multiple partitions screens

ON REQUEST: allow 4 weeks for desktop screens and partition screens / 6 weeks for rails and accessories

LUCIEN

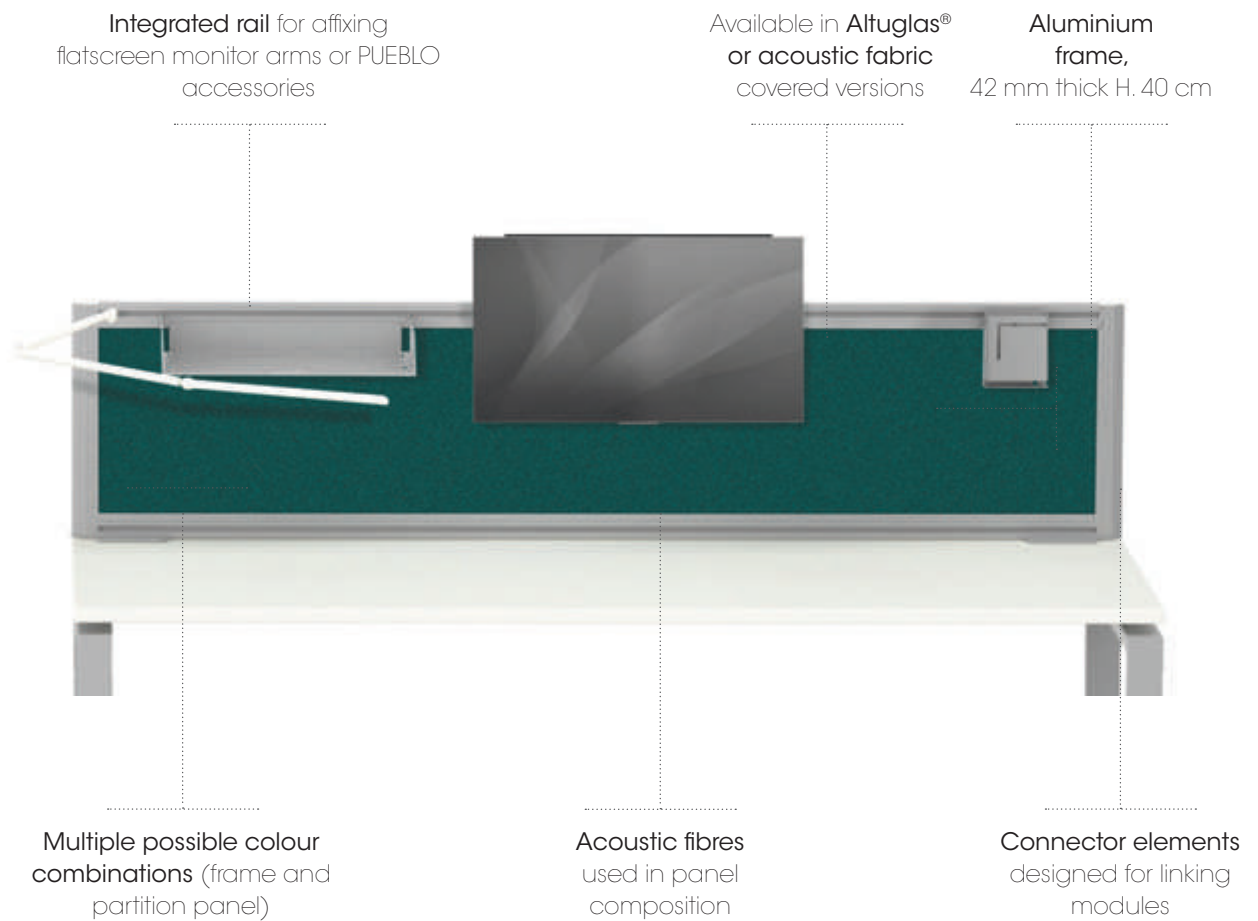

Thanks to its sturdy design and acoustic properties, LUCIEN is ideal for creating individual spaces that favour privacy and concentration. The partition panels notably feature an aluminium frame that can receive a flatscreen monitor arm and many other accessories to help optimise the workspace. The fabric covered and part-glazed partition screens allow you to define different areas within an open space environment.

Connector kit

Fixing clamps
To be ordered separately. Fixing clamps must be included in your order. Complete with the addition of a connector kit to link multiple partition screens.

FABRIC

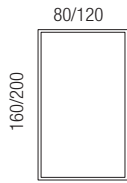

COVERED ACOUSTIC PARTITION SCREENS

Bondai fabrics (Cat. A) Xtreme CS fabrics (Cat. B) Blazer fabrics (Cat. D)

Ref. + fab. + fin.

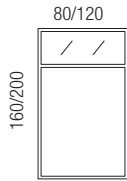

Fabric covered acoustic partition screens

Stabilizer feet must be ordered separately in accordance with the chosen configuration: see recommendations opposite. PUEBLO range accessories can be affixed to the median profile of mixed fabric/glazed partitions (see page 119).

Fabric covered partition screen

H. 160 x W. 80 cm	6 493 301	
H. 160 x W. 120 cm	6 493 300	
H. 200 x W. 80 cm	6 493 303	
H. 200 x W. 120 cm	6 493 302	

Partitions 2/3 fabric 1/3 glazed

H. 160 x W. 80 cm	6 493 305	
H. 160 x W. 120 cm	6 493 304	
H. 200 x W. 80 cm	6 493 307	
H. 200 x W. 120 cm	6 493 306	

OPTIONS FOR ACOUSTIC PARTITION SCREENS

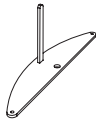

Ref. + fin.

Stabilizer feet

Affix to the base of acoustic partition screens.

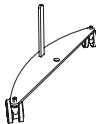

Positioned in line, 2 feet are required for each starter partition, followed by 1 additional foot every 2 partition screens. If 2 partitions forming an angle, 'T' shaped configuration (3 partitions) or cruciform (4 partitions), stabilizer feet are not required.

Stabilizer feet	6 493 194	
-----------------	-----------	--

Set of 4 self-braking castors

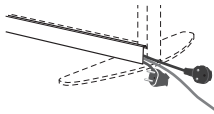

Mounted to the underside of stabilizer feet. Ø 65 mm. For 2 stabilizer feet.

Set of 4 castors	6 493 195	
------------------	-----------	--

Cable trough

Secures to the lower section of the partition screen, allows the concealed channelling of cables.

For partitions W. 80 cm	6 493 212	
For partitions W. 120 cm	6 493 213	

Connector kit

Use to link multiple partition screens together. Allows the creation of variable angle layouts.

Allow for one connector kit to link 2, 3 or 4 partitions. For linear configurations, foresee one connector kit per additional partition screen.

For partitions W. 160 cm	6 493 310	
For partitions W. 200 cm	6 493 311
