*Work and lifestyle design
and bar stools*

Who we are and what we do

Sedus Stoll AG was founded in 1871 and is one of the leading European manufacturers of office solutions. The product range includes seating furniture, such as swivel and visitor chairs, as well as office, conference and contract furniture – all “Made in Germany”.

The company headquarters is located in Dogern on the High Rhine in southern Germany. Another production site is in Geseke, North Rhine-Westphalia. Sedus is a company with a long tradition and 150 years of company history that has repeatedly set standards – in terms of ergonomics, manufacturing processes and sustainability. As a synonym for innovation, technology and aesthetics, Sedus constantly enriches the “office world” with new product ideas and contemporary concepts. Sedus puts a strong focus on current trends and changes in the world of work. New organisational structures and forms of work require flexible, aesthetic furnishings and custom-made solutions that enhance collaboration, communication and movement. A particular emphasis is placed on the health and well-being of the users.

Change of posture

Creativity

Productivity

Frequent changes of posture can have a positive effect on creativity and productivity

3 heights

low 450 mm studio 625 mm bar 785 mm

Low, medium or high: What sitting height should it be?

se:spot awards

reddot award 2019 winner

Coffee corner, canteen or at home:
se:spot cuts a fine figure everywhere.

Sitting down and standing up made
easy. With the convenient intermediate
“studio” height se:spot stool.

The high “stool” version at bar height
fits well with the mastermind high desk
or the meet standing table.

se:spot FAMILY

Working the way it feels best

Modern office furnishings are versatile

They are geared to the needs of the employees and to the most diverse work requirements. Besides the functional aspects, atmosphere plays an important role.

Employees meet spontaneously and work together wherever it is convenient at the time. The only requirement: A favourable environment and an easy-to-use seating option, such as se:spot.

High desks are ideally suited for project and teamwork. They offer an appealing environment for lively exchange of ideas, brainstorming and fruitful discussions. se:spot stool is the ideal partner with a stylish design. The clear lines of the chair blend in harmoniously with the rest of the furniture and also convey good seating comfort – both the high version and the convenient intermediate height.

COSY, COMFORTABLE, VERSATILE

1 design – 3 heights

Sitting, standing – or something in between

The products of the se:spot family meet the most diverse requirements. From snug and cosy in break areas or at home to professional and practical in meeting rooms, the chairs convince with their comfortable and attractive design.

What makes the se:spot stool particularly ingenious is the intermediate “studio” height. The user can sit down and stand up spontaneously – depending on the specific requirements of the meeting. For raised seating – for example, at the high desk – the “bar” version is the right choice. The classic se:spot is suitable for sitting at tables with a standard height.

se:spot

ideal for sitting for longer periods of time at tables with a standard height of approx. 740 mm

Examples of use

- Bistros/canteens
- Lounges
- Meetings
- Home office

se:spot stool “studio”

ideal for a relaxed, supported sitting position at tables with a height of approx. 900 mm

Examples of use

- Central office areas
- Short meetings
- Teamwork/project work

se:spot stool “bar”

ideal for sitting for longer periods of time at high tables with a height of approx. 1050 mm

Examples of use

- High conference tables
- Counters
- Bars
- Short meetings

Whether they are used for meeting areas or the home office – the se:spot family of chairs are always a good choice.

Both elegant and ergonomic

Shaped for the body: a naturally flowing design

The lines of se:spot are based on those of the human body. This gives the design its light and natural look while the seat shell and backrest provide pleasant and comfortable support.

Inspired by the human body

Unique design: with harmonious proportions

The curved seat design gives se:spot a wonderfully independent look. With its flowing lines, which are evocative of the human body, se:spot is both natural-looking and inviting. Introducing the ideal sitting form.

Developed for the human body

Unparalleled ergonomics: the anatomical seat shell

se:spot gives the body the freedom it needs and also provides pleasant support. The lumbar curvature in the backrest guarantees a healthy posture when sitting down for long periods of time. The shaped seat pan together with the slightly sloped front seat edges also allow the posture to be spontaneously switched to the side.

DESIGN THAT FITS

A harmonious family

Ergonomic structure, cosy style and a design that fits perfectly: these are the qualities that make the members of the se:spot family so appealing. Moreover, they enhance any environment and remain discreet and harmonious at the same time.

VARIATION AND DIVERSITY

Multifaceted play of colours

Various seat shell colours and base designs make it possible to individually configure the desired model. Discreet colour combination or eye-catcher? Due to the individual changeable seat covers, the chairs will quickly attract attention. The covers can be put on and taken off easily without the need for tools. If the colour concept in the office changes or if the chair is needed in a different area, the se:spot simply adapts to its new surroundings.

Front cover

The colours for the front can be selected from the Sedus colour ranges Atlantic, Connect, Cura, Era, Fame, Phoenix or Step.

Nexus Storm

Nexus Graphite

Back cover

Two colours are available for the back cover (Nexus Storm 4N2 and Nexus Graphite 4N1), which can be combined well with the wide range of colours for the front.

The premium seat cushion made of wool felt in light grey or graphite increases sitting comfort. At the same time, it preserves the elegant lines of the plastic shell.

VARIATION AND DIVERSITY

Easily and well combined

Everything at a glance

Seat shell in black with the four-legged version in natural oak? Or the seat shell in white with the skid version in black? The table provides an overview of the three heights and the numerous design options of the se:spot family.

Perfect fit, function and flair

A harmonious working environment contributes significantly to well-being and productivity. Well-conceived furnishings, pleasant fabric and material combinations as well as the choice of colour accents are key factors for achieving this goal. Whether Smart Balance, Soft Being, Urban Living or Multi Creation – the chairs of the se:spot family can easily be adapted to any of these colour schemes.

Do you need support in planning and implementation?

The experts from Sedus Workspace Design are looking forward to helping you design your modern smart office. From analysing the floor plan and designing the concept to choosing the colour from the Sedus Colour Cookbook, everything comes from a single source.

Smart Balance

structured, technical, functional,
light, reduced, quiet

Urban Living

comfortable, respectable, elegant,
urban, intense, timeless

Soft Being

gentle, calm, balanced,
natural, inviting, regenerative

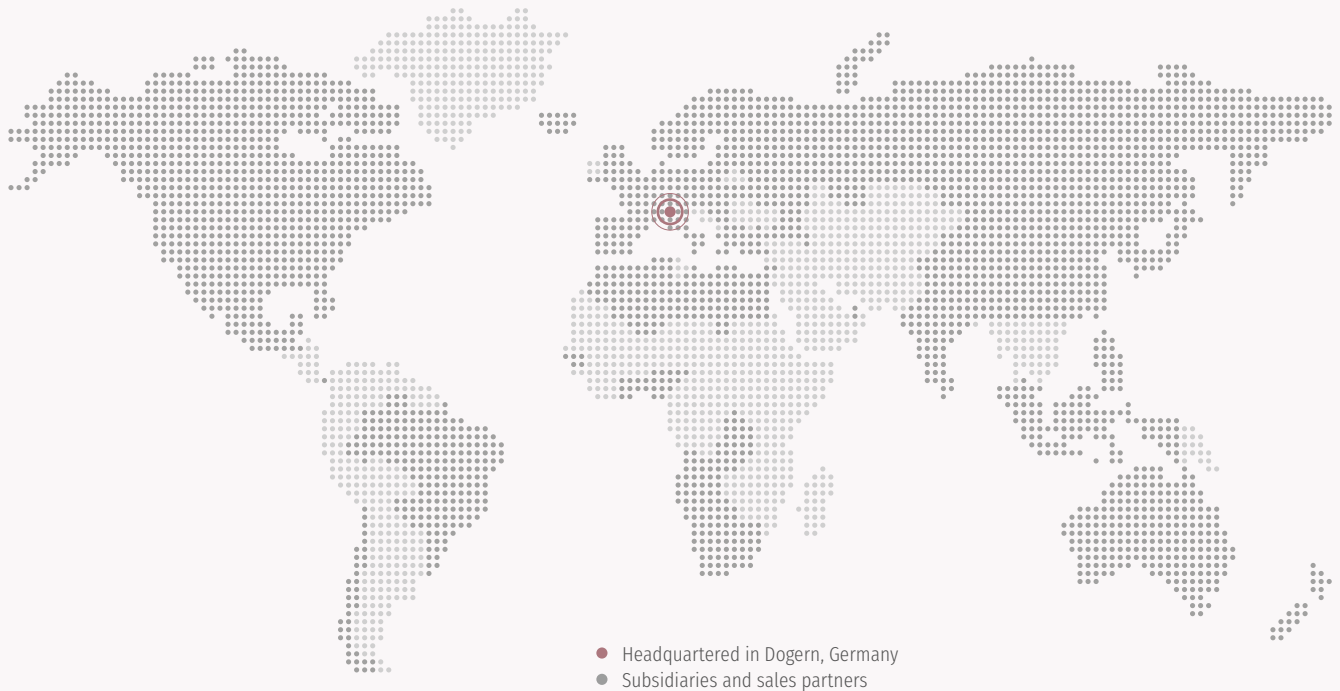

Multi Creation

motivating, inspiring, open,
creative, dynamic, active, free
