

DB Schenker

DB Schenker are a logistics and supply chain management industry providing thousands of products for customers who are focused on finding the best shipping solution.

BACKGROUND

M2 Office embarked on a captivating interior design project. With a reputation for innovation and creativity, M2 Office sought to transform a traditional workspace into a vibrant and dynamic environment that would inspire productivity and foster a sense of community.

ABOUT THE PROJECT

Central to the project was the creation of a vibrant canteen area, doubling as a space for collaboration and relaxation. M2 Office curated a dynamic environment, blending contemporary furnishings and refreshing colors to encourage employee connection.

In the reception, comfort and style seamlessly merged with plush, soft seating options extending warmth and hospitality to visitors and employees upon entry.

Ergonomic design played a pivotal role throughout the workspace, with M2 Office integrating a selection of office desks and chairs tailored for optimal support and focus, enhancing productivity and well-being.

RESULTS

The M2 Office design has breathed new life into the workspace, transforming it into a vibrant and modern environment.
